

Supplemental Counseling Services

Helping Marines and Their Families

Specialized support is available to help Marines and their families plan for deployment, reunions and other special needs.

The Department of Defense is now offering face-to-face counseling through the Mental Health Network. Individuals access this program through **MCCS One Source**. This program provides counseling support outside of Tricare to all Marines and their families.

Available Services

The following services are available to help you provide assistance to your service members:

- On-site orientations for service members and their families
- Customized communications materials to promote face-to-face counseling
- Telephonic consultation for individuals, couples and groups
- Face-to-face counseling by licensed clinicians for non-medical emotional and relationship concerns

For a consultation and assistance in planning support for your troops, call:
